Commissioner for Patents

This application is a CON of S.N. 07/012,205 (filed 2/6/87, now ABN).

A substitute specification including the (pending) claims is required pursuant to 37 CFR 1.125(a) because of the numerous amendments to the specification and claims.

A substitute specification must not contain new matter. The substitute specification must be submitted with markings showing all the changes relative to the immediate prior version of the specification of record. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. An accompanying clean version (without markings) and a statement that the substitute specification contains no new matter must also be supplied. Numbering the paragraphs of the specification of record is not considered a change that must be shown.

Additionally, applicant is requested to provide the correct continuing data for the instant application. Specifically, copending S.N. 07/032,041 (U.S. 7,056,866) lists parent S.N. 07/012,205 (filed 2/6/87, now ABN) as a CIP of S.N. 07/006,991 (filed 1/26/87, now ABN), which application is a CIP of S.N. 07/002,089 (filed 1/12/87, now ABN). Clarification is requested.

Applicant is given a time period of ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Kopec whose telephone number is (571) 272-1319. The examiner can normally be reached on Monday - Friday from 9:30 AM to 6:00 PM.
